Facility Usage Report Square Footage Requirement	School districts must annually report square footage of each facility and acreage of land creating comprehensive property database for state oversight	Enable state to track and identify underutilized space for better resource allocation
Facility Usage Report Capacity Enrollment Tracking	Districts must report total student capacity for each instructional facility and enrollment capacity by campus and grade level with current enrollment numbers	Provide transparency on capacity versus actual enrollment to identify overcrowding and underutilization in facilities
Facility Usage Report Multi-Campus Usage Identification	Districts must identify whether facilities are used by multiple campuses including campus identifiers creating facility sharing transparency requirements	Improve understanding of facility usage to optimize space across multiple campuses
Facility Usage Report Facility Type Classification	Districts must classify each facility by use including instructional career technology administrative food service transportation or vacant land	Create comprehensive inventory of facility types to inform planning and funding decisions
Facility Usage Report Ownership Lease Status	Districts must report whether each facility is leased or owned providing state with comprehensive property ownership and lease obligation data	Establish clear picture of property ownership and lease obligations for financial reporting purposes
Facility Usage Report Public Website Posting	Agency must produce annual public report on school district land and facilities posted on agency website for public access and scrutiny	Increase public transparency on school district property usage through accessible reporting
Facility Usage Report Security Information Exemption	Commissioner may determine certain facility information creates security risk making it confidential and excluded from public reports	Protect sensitive information from public disclosure to prevent compromise school safety
Facility Usage Report Commissioner Rule Authority	Commissioner granted authority to adopt rules for implementation including determining student capacity based on staffing ratios and facility capacity	Provide commissioner with authority to establish appropriate facility standards accounting for local needs
Charter School Funding Basic Allotment Increase	Charter school funding increases from \$125 to \$300 per student in average daily attendance representing significant funding boost	Increase charter school funding to be more comparable with traditional schools improving equity

Charter School
Funding Performance-

Rating

Charter schools lose facilities funding if assigned unacceptable performance or financial ratings for two consecutive years with limited

Ensure charter schools receive acceptable performance rating to continue to receive facilities
